

Upgrades to main entrance start May 6

We are excited to announce upgrades to the main entrance lobby at WLMH will begin on May 6. This work includes replacing the ceiling, light fixtures and fire alarms.

During construction, the main entrance will be closed for approximately five days. Patients and visitors will enter through the Physician Entrance located on the west side of the hospital. Directional signage will be on site.

The Emergency Entrance remains open 24 hours a day.

We appreciate your patience as we fix our hospital until a new one is built.

Please continue to visit WLMH.ca for updates on our plans to rebuild WLMH.
