

Creating Capacity for Construction

In the coming weeks, you may see WLMH staff and physicians making their way to the hospital on foot or via shuttle service. Some of the hospital's parking lot space is needed to support the next phase of construction and arrangements have been made for staff and physicians to park off-site.

Patients and visitors may continue to access parking as usual via the lot on Main Street.

If you see a WLMH team member walking down Main Street, please give them a friendly wave and thank them!
