

Hospital entrance: November 22 – 25, 2019

The corridor on the main floor at WLMH will be closed as of November 22 at 1:00 pm to support infrastructure work in the main hallway. The main entrance will be open, however access to all areas of the hospital except obstetrics will be via the first floor or the basement.

If you are unable to safely manage stairs, we recommend that you enter the hospital through the Emergency Department entrance or the entrance ramp on the west side of the hospital.

The main hallway will reopen by 7:00 am on Monday, November 25, 2019.

Thank you for your patience.
